One 2 One Lessons

One on one lessons can be a great way to perfect a hair or makeup look that you have been struggling with or to learn tips and tricks that can make it easier for you to style your own hair or apply your own makeup for a wedding or special event.

Yankee Sweetheart is happy to tailor a lesson to your specific needs, whether you want to learn to pincurl your own hair, apply a smokey eyed look for a sultry night out or you are having trouble replicating the style you are after we will work with you to break things down into easy to learn steps.

Please bring your hair and makeup tools with you so that we can see what you are working with and make suggestions for things you might want to get in the future. If you would like to get further information or discuss what you would like to learn please call 0407137699 or come into the shop to discuss how a private hair or makeup lesson could help you

xoxo - Yankee Sweetheart
